CAREER

Jan 2025 – present
1 year and 9 months
Senior Technical Lead
Ferrovial via NTT DATA

Design, evolution and operation of distributed microservices-based platforms, contributing both to the technical definition of solutions and to the resolution of complex production incidents. Backend architectures in Java and Spring Boot, event-driven integrations with Apache Kafka and cloud-native deployments on Microsoft Azure and Kubernetes.

International project for Ferrovial, with multidisciplinary teams spread across several locations.

Jun 2019 – Jan 2025
5 years and 7 months
Business Analyst
Fujitsu Spain

Requirements gathering for the development and rollout of new applications and features. Breaking work down into tasks by defining technical and functional requirements, managing development using agile methodologies (Scrum) and tracking progress on Kanban boards. Project estimation and planning, merge request reviews and team support.

Jun 2018 – Jun 2019
1 year
Analyst Programmer
Fujitsu Spain

Enhancements and bug fixes to the company’s internal applications.

Nov 2017 – Jun 2018
7 months

Analyst Programmer

Port Authority of the Bay of Algeciras via Sopra Steria

Electronic office (sede electrónica): analysis and implementation of new requirements and definition of administrative procedures using model@ and trew@. Integrations with the electronic registry (ISICRES) and electronic notifications (notific@). Rollout of the new version of @firma 6.

Mar 2016 – Nov 2017
1 year and 8 months

Analyst Programmer

EMASESA via Sopra Steria

AQUAWS project for EMASESA (Seville's metropolitan water supply and sanitation company). Analysis and resolution of incidents in compliance with the agreed SLAs, along with new requests across the project's three areas: RED, SIGO and SIC.

Feb 2016 – Mar 2016
1 month

Java and Java EE Course Instructor TEACHING

Sopra Steria

Java and Java EE course for junior developers, in Valencia. From the language itself and object-oriented programming through to design patterns, JDBC, JPA, Struts, Spring and the JEE standard.

Oct 2015 – Feb 2016
4 months

Java Analyst Programmer

Regional Ministry of Environment and Spatial Planning (Andalusian regional government) via Sopra Steria

Enhancement of the CECA platform (Java Swing), implementing new features and developing REST web services.

Jul 2015 – Oct 2015
3 months

Senior Developer

Abengoa via Sopra Steria

Development of plugins, enhancements and bug fixes for JIRA, using agile methodologies (Scrum).

Nov 2014 – Jul 2015
8 months

Analyst Programmer

Andalusian Innovation and Development Agency (IDEA) via Sopra Steria

Interoperable mobility projects delivered through the WSO2 ESB, targeting the healthcare sector and compliant with the EN-13606 standard. Analysis and development of the m2Phear and Compass projects, initiatives funded by the European Commission (H2020).

Jun 2014 – Nov 2014
5 months

Web and Mobile Developer · Android Specialist

AKI Bricolaje via C2 Intelligent Solutions

Development and maintenance of PHP applications running on MySQL, along with application development for Android platforms.

Aug 2013 – Jun 2014
10 months

Java Developer

Junta de Andalucía (Regional Government of Andalusia) via Fujitsu Technology Solutions

Development and maintenance of Java J2EE projects for the public sector. Integrations with Trew@, @firma, Plantill@ and Terceros, along with advanced reporting using Jasper Reports.

Jan 2013 – May 2013
4 months

Android Analyst Programmer

Imasdroid S.L

Native Android applications for Google Nexus devices. Design and implementation of the back-end architecture, making intensive use of background services, threads, alarms and REST web services on the Yii PHP framework. Also responsible for systems administration: backup automation, rsync, Subversion, and web and mail servers.

Jun 2011 – Dec 2012
1 year and 6 months

Java Developer

Onlinetours via Viavansi

Development of web applications in Java, including work on the onlinetours.es portal. Integrations with Avanthotel (hotels), Orizonia and Iris (flights).

May 2010 – Jun 2011
1 year and 1 month

Internship

Viavansi

Support to the team’s developers and analysts.

Jan 2002 – Dec 2002
11 months

Internship

ELELOG S.L

Maintenance of SIGED (Sistema Integral de Gestión Deportiva, an integrated sports management system): bug fixing and debugging.

Jan 2001 – Dec 2009
8 years and 11 months

PHP Analyst Programmer FREELANCE

Freelance

Freelance web development, combined with my studies.
